

I am concerned the programming our family listens to on K-Love will be lost if the LPFM stations take priority over the FM translators. K-Love is a wonderful Christian radio station, providing my family with positive and encouraging messages through the announcers and the music they play. The community of friends and family we have in our area would be truly disappointed and discouraged without this wonderful uplifting station. It is most definitely in the public interest to continue with stations like K-Love to offer hope, peace and prayer to the people of our country who do not have any hope, or peace or joy in their lives. I pray you find time to listen and understand why this is so very important.

God's blessings to you,
C Fillman
